

Public Health
Prevent. Promote. Protect.

Fairfield Department of Health
Nursing Division

July 1, 2016

Dear School Nurses,

The Fairfield Department of Health will be offering walk-in clinics for students needing Tdap booster and Meningitis immunizations for the 7th and 12th grades. The clinic dates are: July 19, July 26, August 2, August 9, August 16 and August 23 from 2:30-5:00P.M. The walk-in clinics will be held at the Fairfield Department of Health, 1550 Sheridan Drive – Suite 100. Please remind your patients to bring their insurance card, Medicaid card (including Molina & Care Source) and if they have no insurance a sliding fee scale will be used. The vaccines are not free.

Beginning with the start of the 2016-2017 school year, all pupils entering the 7th and 12th grade are required to be vaccinated against meningococcal (serogroups A,C,W, and Y) disease. One (1) dose of MCV4 vaccine is required prior to entry into the 7th grade. A second (2nd) dose of MCV4 vaccine is required prior to entry into the 12th grade. The second (2nd) dose must be administered on or after the 16th birthday with at least eight (8) weeks between the first (1st) and second (2nd) dose. If the first dose of MCV4 was administered after the 16th birthday, a second (2nd) dose is not required.

In February 2015, the Advisory Committee on Immunization Practices (ACIP) recommended use of Meningococcal B vaccines for children 10 years or older at increased risk for Meningococcal B disease. Recommendations for routine use of Meningococcal B vaccine in children through young adults are under consideration.

To speed up the process please inform clients to complete the forms found on our website: www.myfdh.org. and bring them to the walk in clinic. If you have any questions please call me at 740-652-2830 Monday-Friday 8AM – 4PM.

Sincerely,

Jenny Grove RN
Immunization Coordinator
